Bahira University,Karachi   **Feb 2023 - Feb 2027**
Bachelors in Information Technology. GPA 3.49

Meritorious College   **Aug 2020-Aug 2022**
A-level grades: 2C,1D

Meritorious School   **Aug 2018-May 2020**
O-level grades: 5A,3B

WORK EXPERIENCE

Developers Hub Corporation   **Karachi, Pakistan**

Frontend-Intern (remote)   **April 25 – June 25**

- Enhanced user experience by developing responsive website layouts and implementing cross-browser compatibility.
- Conducted thorough testing on various devices and browsers, guaranteeing optimal performance across platforms.
- Collaborated with the design team to create visually appealing websites, ensuring a consistent and cohesive brand image.
- Integrated third-party APIs into web applications, expanding feature offerings and improving site capabilities.

PROJECTS

Course Management System   **December 24 – January 25**
This is a university project that allows users to add students, teachers, and Courses. At least for now, it's an admin panel where all edit, update, and delete functionality works. However, I was having some difficulties connecting the backend (Python-Flask) with the frontend (React), which was due to the CORS policy. The issue was resolved when CORS was permitted for the Origin. Although the project is being deployed, the SQL server is not responding as yet

- Frontend(react)
- Backend(Python-Flask)
- server (Microsoft SQL Server)

Fit Track Pro   **May 25 – June 25**
Developed a full-stack health tracking app using MongoDB, Express.js, React, Node.js, and Tailwind CSS. Designed and integrated RESTful APIs for user authentication and workout tracking (cardio and resistance). Ensured a responsive and user-friendly interface with secure JWT-based login.
